

ANSWER OF RECALL

Contrary to the allegations by the proponents, there exists no "compelling evidence" that I used the power of my position to "coerce City inspectors and planners." Review of the pre-trial depositions taken from numerous City employees reveals no indication that any employee was unduly influenced by me. This has been confirmed by the statement to me by the attorney litigating on behalf of the City that there was no evidence presented to establish that I was at fault. There has been no finding of guilt or impropriety by a Judge or a Jury. The decision by a judge to allow the plaintiffs to have their day in Court does not establish *guilt*.

The only communications to the City by me and my husband were to request enforcement of City codes and permits required to correct violations associated with the plaintiffs' construction adversely impacting us as neighbors. *I never requested nor did I receive any special treatment.* When I was elected to City Council, I did not give up my right as a private citizen to protect my property and my quality of life *or to complain if my property rights were being infringed upon.*

Betty Rexford

(Signature)

A handwritten signature in black ink that reads "Betty Rexford". The signature is written in a cursive style and is positioned between two horizontal lines.
